Dear David,

CIS Online Services: Recognition for Internet Filing Enabled Software

Internet Product: Contractors CIS

I can confirm that you have now successfully tested your Internet Filing Enabled Software package '**Contractors CIS**' through the Vendor Single Integrated Proving Service (VSIPS).

The forms you have successfully tested are:

Verification Request

Your business name and details of the tested product will now be included on the HMRC recognition web page at <http://www.hmrc.gov.uk/ebu/cis-online.htm> . This page lists those CIS Internet Enabled Software products that have successfully passed through the testing process.

Please note that the issue of this letter and inclusion of your product details on our WebPages should not be regarded as HMRC endorsement or 'kitemarking' of your Internet Enabled product, instead it simply confirms successful testing through VSIPS.

Please remember, in order for your name to remain on the WebPages, you should retest any amendment that you make to the software package, including schema changes that we notify you about and/or any new versions of your product.

Yours sincerely

Steve Haley
