Dear Carl

**PAYE Online Services 2009-2010: End of Year P14, P35  
Recognition for Internet Filing Enabled Software**

Internet Product(s): **Datafile Payroll**

I can confirm that you have now successfully tested your Internet Filing Enable Software package(s), named above, through the Vendor Single Integrated Proving Service (VSIPS). The testing has been based on the submission of '**Original**' EOY returns. You have confirmed that the PAYE EOY Validation Tool was used when testing and developing the product(s).

The product tested caters for:

**Complete** submission of the P35 and P14s  
**P35Part** submission  
**P14Part** submission

You have also included and successfully tested the following items:

<b>Weekly</b>	<b>Monthly – tax refund</b>
<b>Monthly</b>	<b>Monthly - SSP</b>
<b>Monthly – SAP/SMP/SPP/Student Loan</b>	<b>Net Pay Arrangements</b>
<b>Monthly – multiple lines of contributions</b>	<b>Cessation</b>
<b>Weekly - week 53</b>	<b>Monthly - CIS deductions suffered</b>
<b>Fortnightly - week 54</b>	
<b>4 Weekly - week 56</b>	

Your business name, details of the tested product and your URL [www.datafile.co.uk](http://www.datafile.co.uk) will now be included on the HMRC recognition web pages at [http://www.hmrc.gov.uk/efiling/payepaye\\_software\\_forms.htm](http://www.hmrc.gov.uk/efiling/payepaye_software_forms.htm) which lists the PAYE Internet Enabled Software products that have successfully passed through the testing process.

Please note that the issue of this letter and inclusion of your product details on our WebPages should not be regarded as HMRC endorsement or 'kitemarking' of your Internet Enabled product, instead it simply confirms successful testing through VSIPS.

Please remember, in order for your name to remain on the WebPages, you should retest any update(s) that you make to the software package, including schema changes that we notify you about and/or any new versions of your product.

Yours sincerely

Trevor Huddleston
